---

Gary,

In my report to the NRRB I referenced a report by Dr. Sam Brody (*A Flood Risk Assessment of the San Jacinto River Waste Pit Superfund Site*). Attached to this email is the report in entirety and the executive summary. I think that you will find it useful, as it contains maps and data not considered in the RI/FS.

Also, I was wondering if the EPA was running on schedule for the September proposal of the remedial alternative?

I would also still like to set up a CAG. I looked through the previous email where we discussed a CAG and the link you sent is no longer working. Do I need to email Donn on this matter or is the CAG something I can set up through you?

Thank you,  
Jackie Young
